EXPERIENCE

PT BANK CENTRAL ASIA TBK - West Jakarta, Indonesia
(Contract under PT Danamas Insan Kreasi Andalan)
IT Tester Manual (August 2023 - September 2026)

- Collaborated closely with Business Analysts, Software Developers, and Product Owners throughout the application development lifecycle, particularly during the testing phase.
- Worked within an Agile/Scrum environment throughout the software development and testing lifecycle
- Translated application requirements into test cases, incorporating Boundary Value Analysis (BVA) and Equivalence Partitioning (EP) techniques to ensure comprehensive test coverage.
- Performed test executions, functional testing, and regression testing based on define test cases and application requirement, identifying and documenting defect for resolution and retesting.
- Prepared detailed working papers and defect reports during the User Acceptance Testing (UAT) process using Microsoft Excel.
- Performed smoke testing with the System Developers team to verify UAT-ready features and identify critical issues before UAT, helping reduce the number of defect found during UAT.
- Utilized Microsoft 365 to collaborate with the development team for defect tracking, issue monitoring, and testing documentation.
- Used TeMan (Testing Management) application for test plan, test execution, defect/bug, and testing report documentation. Familiar with JIRA
- Participated in weekly knowledge-sharing meetings to discuss ongoing UAT activities, application enhancements, and newly developed features.

BADAN PUSAT STATISTIK - East Jakarta, Indonesia
Data Entry (November 2022 - March 2023)
